VOTE N

TO ZERO- SAFETY ABORTION AMENDMENT

“That every individual has the fundamental right to reproductive freedom and that the right to make and effectuate one's own decisions about all matters related to one's pregnancy cannot be denied, burdened, or otherwise infringed upon by the Commonwealth, unless justified by a compelling state interest and achieved by the least restrictive means...”

What It Does

Parental Rights Undermined

Eliminate the right of parents to know about or consent to their young child's invasive abortion surgery.

Transgender Surgeries on Minors

"Because the right to “fertility care” includes sterilization procedures and is not just given to adults, children will have a right to gender transitions without adult interference.

Limits Industry Accountability & Oversight

Eliminates the state's ability to penalize or regulate individuals aiding “reproductive freedom,” potentially reducing oversight, accountability and liability for harm done to the woman.

Babies Left to Die

Infants born alive after an abortion attempt would not be clearly guaranteed reasonable, life-saving care.

Weakens Health & Safety Standards

Long-standing safety regulations designed to protect women's health could be challenged and struck down.

More Late Term Abortions

Abortion could be permitted up to the moment of birth even for mental health reasons. The current requirement that multiple physicians to agree that's irreparable harm to a woman's health if she proceeds with her pregnancy will be eliminated.

Could Increase Abortions in Virginia

With fewer safeguards, Virginia will see significant increases in abortion volume beyond the over 38,000 abortions already happening annually, especially as it seeks to make our Commonwealth a regional hub for abortion.
